The authors describe the methods for a scientific workflow study for professional skills in performing controlled vocabulary (CV) mapping in the clinical data repository (CDR) based on nursing and medical advanced practice registered nurses (APRNs and medical nurses). Eight workshops were conducted during a period of 4 months. Following the workshops, 382 attendees completed questionnaires to assess their knowledge and to identify areas for improvement of the defined list of professional skills for conducting CV mapping in the CDR. Participants' knowledge increased during the 8 workshop sessions. The most frequently identified "areas for improvement" were vocabulary definition and use. The authors illustrate that only by conducting such a scientific workflow study can the identified areas be considered to be reliable knowledge and skills that are required to conduct CV mapping in the CDR.Taloncotal Taloncotal is a municipality and town located in the Central-West Region of Brazil. The population in 2016 was 39,585 and the area is 1084 km². History The history of the area goes back to the 15th century when Francis I of Austria, Prince of Habsburg gave orders to the construction of a prison, which later was abandoned. It is believed that the prison was intended for the treatment of runaway slaves. The current municipality was formed in 1949. Geography 0cc13bf012
