I am using elasticsearch 6.2.2 and already using NLP feature of elasticsearch. I have created the data and the graphql API is working fine. But I am unable to change the default search filters like start\_object = time() - 60000 end\_object = time() from start\_object=time()-5 end\_object=time() It is giving a 403: 400: Bad request I have tried to create and delete the existing index and re-create it. When I am trying to change the query from the default curl -XDELETE " curl -XGET " I get another error Failed to parse request body into json: Did you forget to specify the JSON format? I have seen the following links but not working for me
