A mysterious and enchanting game for your heart! Experience a journey of sensuality and tenderness in the forest of abandonments. An old story set in the years when the forest was evolving, growing and transforming. A story of beauty and love. A step by step story with many possibilities. Meet a loveable companion who will accompany you to the end, getting to know you as you go along! A romantic story of repressed passion, sensual love and tenderness! Experience the forest of abandonments, a beautiful and serene summer environment with a romantic story of passion, love and sensuality for your heart! The forest is a step-by-step interactive story of a romance-building journey through sensual seduction, eroticism and erotic love, whose end no one can predict! Set in a dark and enchanted forest, on a night with no moon, with the early light of dawn as the backdrop, Abandoned: The Forest is a romantic, sensual and erotic story written for the eyes, for the ears and for the heart. It is possible for you to determine the story's end. For example, you can decide who falls in love first – him or her, or you can decide if the couple's love will last. Through varied and well-thought-out storytelling, you will be able to experience sensuality, eroticism and tenderness from a different angle to the one we are accustomed to. You will have the opportunity to share your love and sensuality with the characters in the game, developing the story through erotic scenes and erotic sounds. You can carry out all of the actions within the game with the cursor as well as with the touch of your finger. Gestures will be key for telling the story and making your decisions throughout the game. The easiest way to play the game is by the touch of the cursor on the screen, so you don't miss anything. On the other hand, if you want to develop the story and experience more detail, you should focus on the sound file, in order to hear the sensuality of the characters and to develop the scenarios using sound and sensual experience. 1 From A Story Of Love To A Game Of Passion The Story After wandering through the forest for a long time, you realize that this forest is not a normal place. There are no signs
