How to check if a UIImageView has finished loading? I have a program in which I load up an image, into a UIImageView. It's quite standard:

```
-(void) viewDidLoad { UIImage *image =  
    [UIImage imageNamed:@"Blank.png"];  
    self.posterView.image = image;  
    self.posterView.contentMode =  
    UIViewContentModeScaleAspectFit;
```

```
self.posterView.frame = self.view.bounds; }
```

Now this is quite easy, but what if it takes a while for the image to download? Any ideas on how to track when the image has finished loading? Thanks A: Just post a NSNotification whenever you want the image to be finished loading. Add this to your viewDidLoad method: -

```
(void)viewDidLoad { [super viewDidLoad];
```

---

```
UIImage *image = [UIImage
    imageNamed:@"Blank.png"];
self.posterView.image = image; NSNotification
*finishedNotification = [[NSNotification alloc]
    initWithName:@"ImageLoaded" object:nil
    userInfo:nil]; [[NSNotificationCenter
        defaultCenter]
            postNotification:finishedNotification]; } Update
